

COMPANY PROFILE

This profile offers a comprehensive overview of who we are, what we do, and how we deliver safety without compromise. From our core services to our values and milestones, it reflects our commitment to excellence in fire protection across the UAE.

ABOUT US

DNIEPER FIRE (D.F.S) is a Civil Defense Approved Fire Service Company based in Abu Dhabi, Al Ain, Dubai, and Sharjah, maintaining over 1,000+ businesses, homes, and industrial facilities in a safe and secure manner. We provide 24/7 emergency response support in full compliance with UAE Civil Defense requirements.

..... We are committed to protecting and maintaining your property's fire safety systems to
..... the highest standards of safety and reliability.

OUR HISTORY

Since its inception, Dnieper Fire & Safety has grown from a local service provider into a trusted name in fire protection across the UAE. Our journey is marked by innovation, compliance, and a relentless commitment to safeguarding lives and properties. Here's a look at some key milestones that shaped our story.

2012

Dnieper Fire & Safety was established in the UAE with a vision to become a trusted name in fire protection. Starting with a small but skilled team, the company focused on supplying and maintaining fire extinguishers and basic alarm systems.

2015

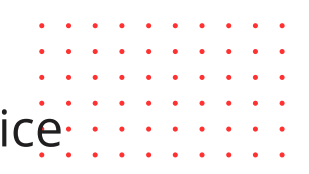

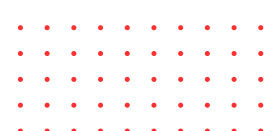

By 2015, Dnieper had expanded its portfolio to include advanced fire alarm systems, emergency lighting, and voice evacuation technologies. Strategic partnerships with global manufacturers allowed the company to serve larger-scale projects across commercial and residential sectors.

2018

Achieving full UAE Civil Defense approval was a major turning point. This milestone enabled Dnieper to participate in government and high-security projects, reinforcing its reputation for quality, compliance, and trust.

2023

With over a decade of experience and more than 10,000 clients served, Dnieper solidified its position as a leader in integrated fire protection. The company launched 24/7 emergency support and emphasized sustainable, tech-forward safety solutions across the UAE.

OUR VISION

OUR MISSION

01.

To become customer's first choice as a local one stop solution provider for best class certified products and services of premium quality that meets a varied range of life and safety application.

02.

Become a global leader having domestic presence with a credible and trustworthy profile of high standard and world class installation and maintenance services.

OUR SERVICES

We design, supply, and install all types of fire alarm systems.

Fire Fighting

We offer a wide range of fire protection systems at the most competitive prices in the UAE.

Emergency & Exit Lights

Ensure safe evacuation by installing reliable emergency & exit lights.

Maintenance

Let our team of experts help you maintain your fire safety systems efficiently and effectively.

Extinguishers

We supply, service, and refill all types of fire extinguishers.

Supply & Install

We supply and install all types of UAE-approved fire safety products.

Design & Services

We help you obtain the required Civil Defense approvals quickly and hassle-free.

Fire Approvals

Let our experts handle the design to deliver customized fire safety solutions that meet your needs.

FIRE **ALARM**

01.

Reliable Protection: Regular fire alarm servicing ensures your system is fully functional when it matters most—helping save lives and minimize damage.

02.

Regulatory Compliance: Servicing is required every three months to stay compliant with fire safety laws and civil defense regulations.

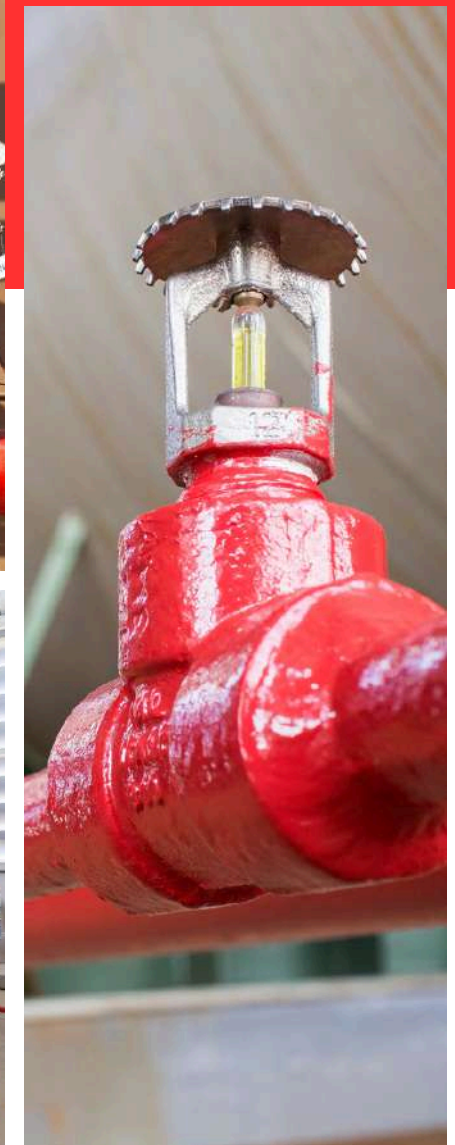

03.

Hassle-Free Scheduling: Once you confirm the service, our trained engineer will contact you to arrange a convenient date and time for the visit.

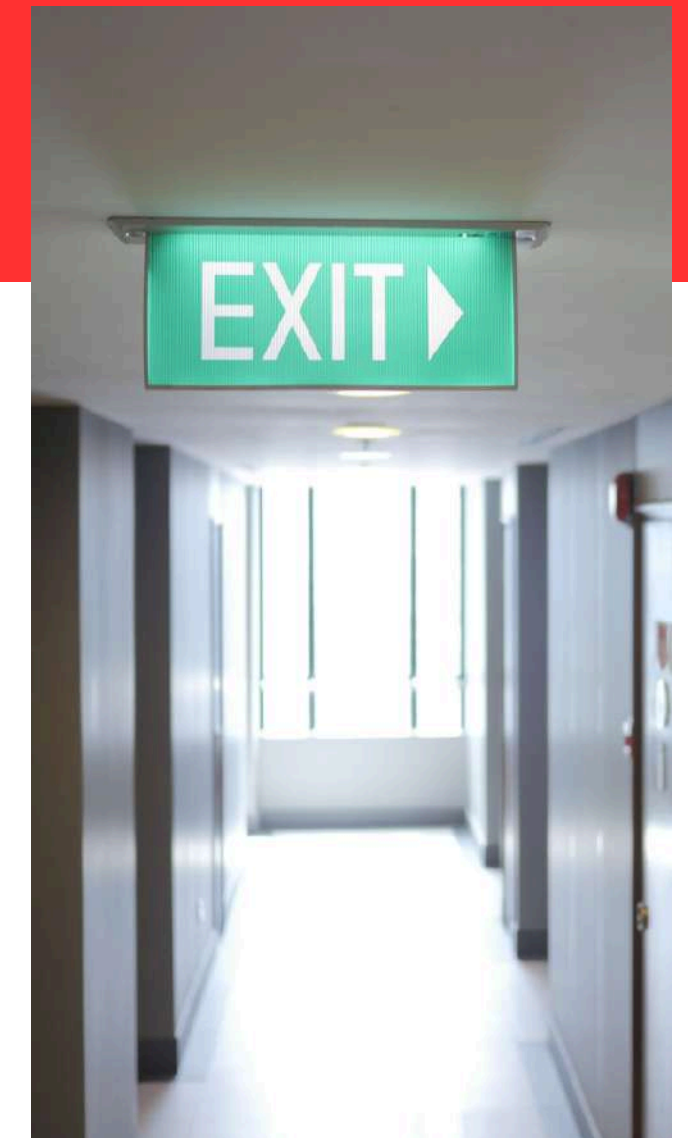

FIRE FIGHTING

- 01.** Certified Expertise: DNIEPER FIRE is a Civil Defense approved company specializing in fire fighting system installation, testing, maintenance, certification, and approvals across Abu Dhabi and Al Ain.
- 02.** Qualified Professionals: Our team consists of highly trained and certified experts dedicated to maintaining your life-saving equipment to the highest standards.
- 03.** Reliable Performance: We ensure every product we install is properly maintained and fully operational when it's needed most—protecting lives and property.

EMERGENCY & EXIT LIGHTS

- 01.** Complete Service: D.F.S supplies, installs, and maintains all types of exit and emergency signage and lighting in compliance with safety standards.
- 02.** Life-Saving Functionality: These systems are designed to guide people safely during emergencies while preventing unauthorized access in daily use.
- 03.** Smart Solutions: Our intelligent emergency exit systems resolve the challenge of balancing safety, security, and accessibility in any environment.

MAINTENANCE

- 01.** Comprehensive AMC Support: Facing issues with your fire fighting or alarm systems? We offer Annual Maintenance Contracts (AMC) with 24/7 service, ensuring fast response and complete accountability.
- 02.** System Takeover & Monitoring: Under our AMC, we take charge of your existing systems—monitoring fire alarms, firefighting, emergency lighting, voice evacuation, and gas suppression systems.
- 03.** Compliance & Certification: We assist with all required documents, clearances, and periodic certifications to keep your systems compliant and fully operational at all times.

FIRE EXTINGUISHER

01.

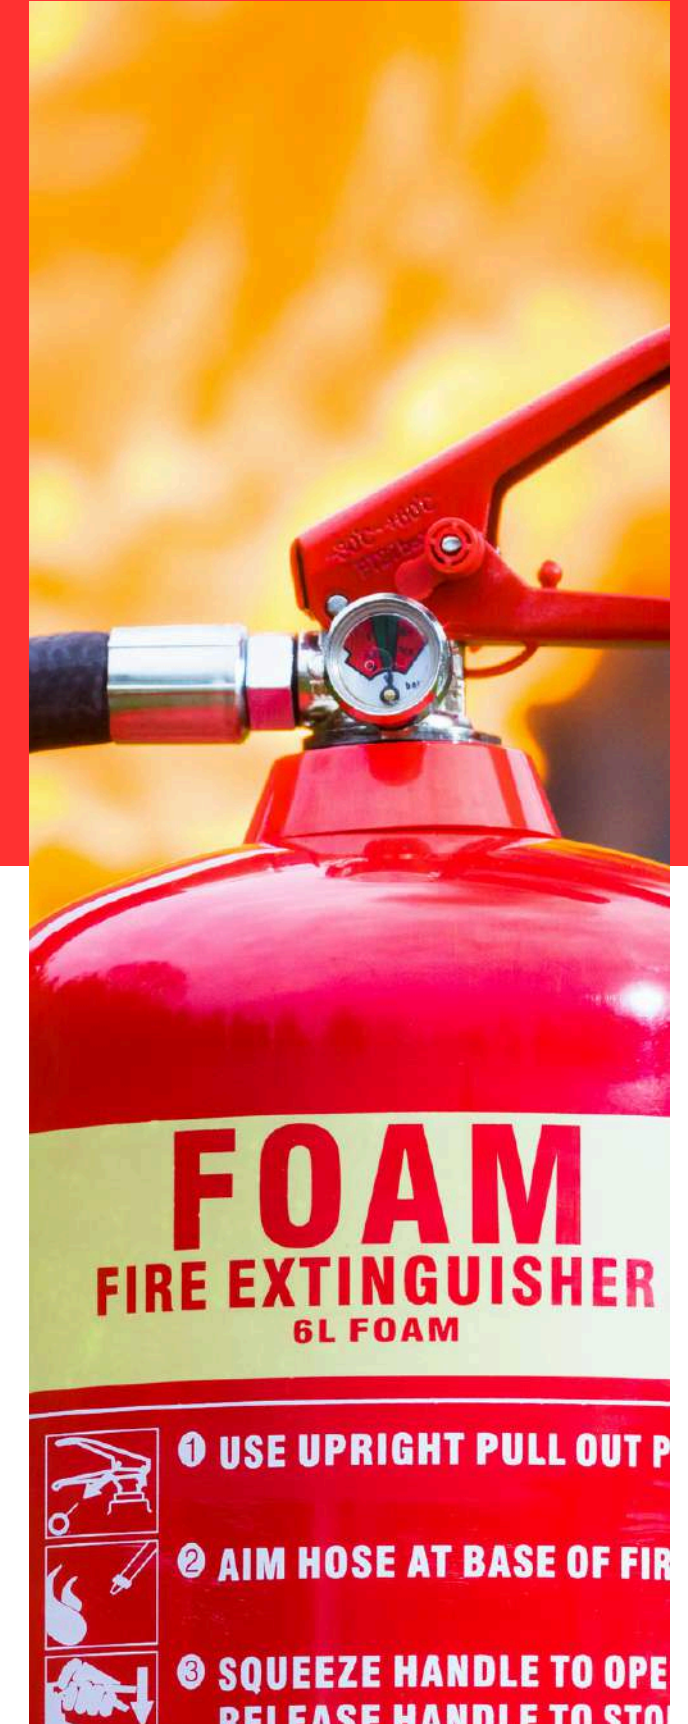

Essential First Response: Fire extinguishers are designed to control small fires at the source by spraying anti-combustion agents directly at the base of the flames.

02.

Mandatory Safety Equipment: In many countries, including the UAE, it is mandatory for large buildings to have extinguishers installed in accessible locations for quick emergency response.

03.

Trusted UAE Supplier: As a reputable fire extinguisher supplier in the UAE, we offer a wide range of units in various sizes and with different anti-fire agents—ideal for both commercial and residential use.

SUPPLY & INSTALL

01.

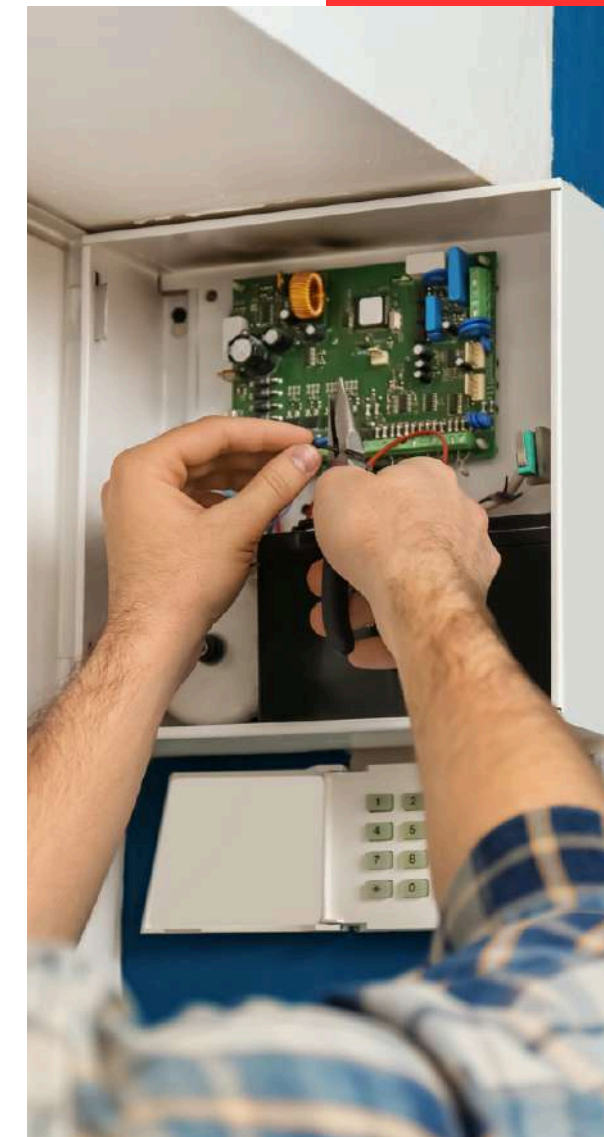

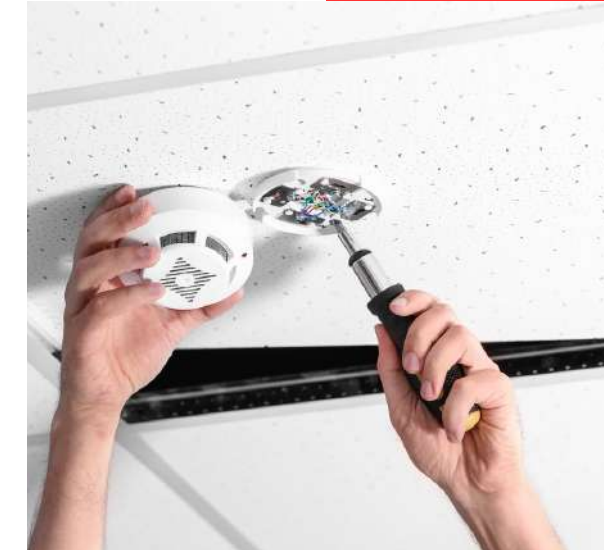

Complete Fire Protection: We supply a full range of fire protection systems, including fire alarms, emergency exits, fire fighting equipment, gas suppression systems, and all types of fire extinguishers.

02.

Competitive Pricing: Our products are offered at highly competitive rates without compromising on quality or compliance.

03.

Nationwide Delivery: We provide reliable delivery across the UAE, ensuring your safety needs are met wherever you are.

FIRE APPROVALS

01.

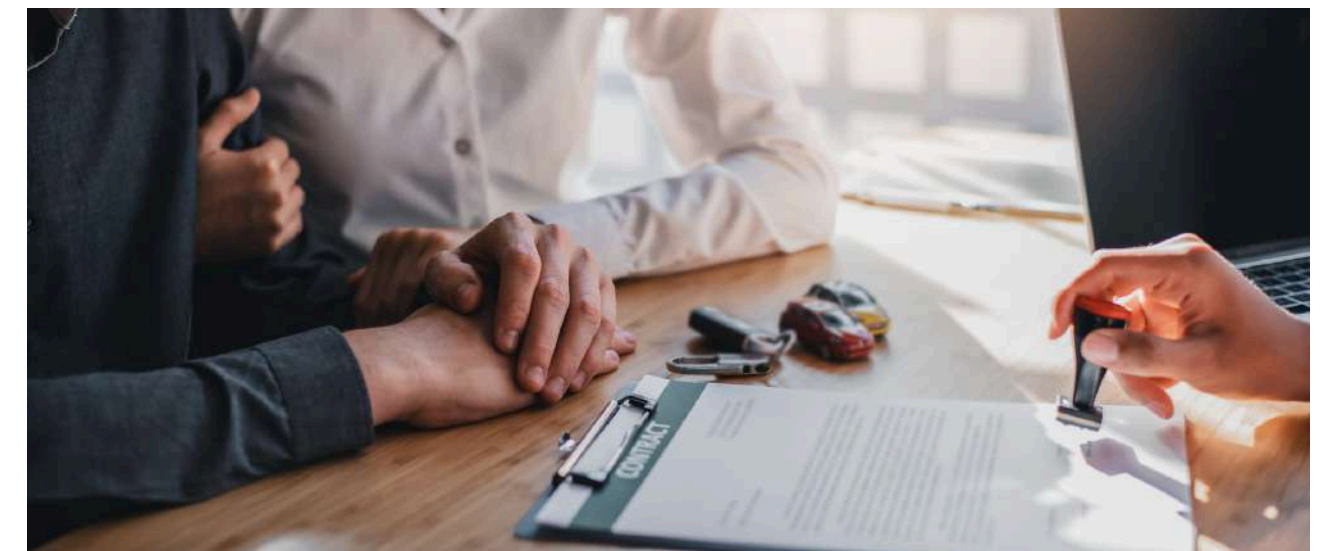

Built with Purpose: At DFS, we produce life-saving fire safety devices with passion, precision, and the capability to maintain them to the highest standards.

02.

Certified Maintenance Only: By law, fire safety systems must be serviced exclusively by authorized personnel to ensure proper function and compliance.

03.

DFS AMC Package: Our Annual Maintenance Contract (AMC) includes a Quarterly Service Schedule carried out by our skilled engineers and technicians—ensuring every device in your premises works at its best, always.

DESIGN & SERVICES

01.

Widespread Experience: We serve a wide range of commercial facilities across all Emirates, including high-rise buildings, stadiums, and power plants—handling fire protection from design to installation.

02.

End-to-End Support: As a trusted fire protection company, we guide our clients through every phase to ensure their systems are properly installed and fully functional.

03.

Your Safety, Our Priority: Whether it's a home or a large facility, you get one chance to install a life-saving fire protection system—trust the experts who deliver excellence every time.

System**

FM200

01.

Engineered Flexibility: DNIEPER FIRE's Clean Agent Fire Extinguishing Systems are fully engineered, offering maximum flexibility to tailor each design according to the specific needs of the location.

02.

Early Fire Control: We equip people with the right tools to control fires early, preventing them from escalating into major hazards.

03.

Advanced Suppression: Our range includes top-rated solutions like the FM-200 (Fire Suppress 227) system, trusted for fast and effective fire suppression.

FOAM SYSTEM

01.

How It Works: Foam suppression systems extinguish fires by separating fuel from oxygen, cooling the flames and coating the fuel to prevent reignition.

02.

Dual Action: The foam smothers the fire's surface while its water content cools the area, stopping combustion and blocking flammable vapors.

03.

Fast & Effective: Foam systems are an essential solution for homes, businesses, and industrial sites—capable of extinguishing fires within seconds.

SPRINKLER SYSTEM

01.

Versatile Fire Control: Sprinkler systems are designed to suppress fires using water, protecting residential, commercial, and industrial properties through automatic activation.

02.

System Types:

- Wet Pipe: Always filled with water, activates instantly.
- Dry Pipe: Filled with air, water flows in upon activation.
- Deluge: Floods area instantly, triggered by detectors.
- Pre-Action: Activates only when fire is confirmed.

03.

Comprehensive Coverage: Whether you're protecting a home, office, or industrial site, our tailored sprinkler solutions provide rapid and reliable fire suppression.

SUPPRESSION SYSTEM

01.

Early Detection: Fire suppression systems are equipped to detect flames and smoke early, triggering alarms before the fire spreads.

02.

Automatic Response: These systems activate automatically in response to fire, making them a reliable passive protection method.

03.

Active Extinguishing: Once triggered, they release agents that work to quickly suppress flames and smoke.

HYDRANTS

01.

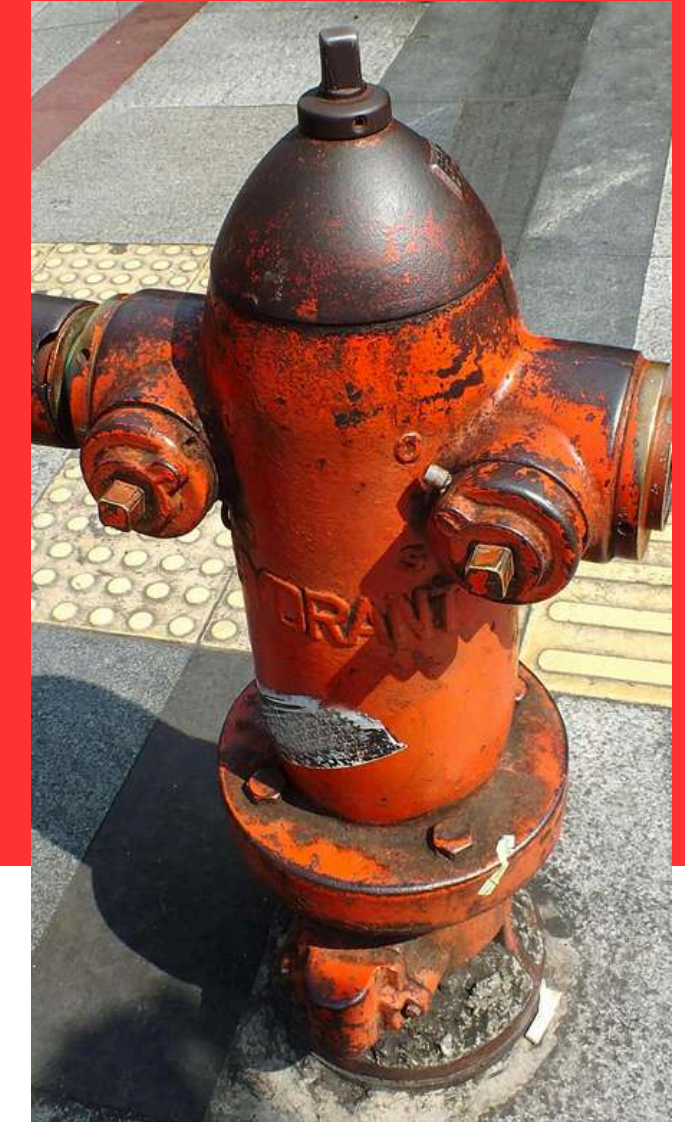

High-Pressure Water Supply: A fire water hydrant system uses a network of piping and a high-pressure pumping system to deliver large volumes of water for firefighting.

02.

Hydrant Connection: The system connects to the main water line via a branch or T-joint, with hydrants linked directly or through a short pipe section.

03.

Durable Housing: Hydrants are installed in brick or concrete chambers with hinged cast iron lids for protection and easy access.

ADVANCE FIRE ALARM

01.

Essential Alert System: Fire alarms are the first line of defense, instantly alerting people in the event of a fire—often through a red panel with a push-button or keyed access.

02.

Smart & Reliable: At Dnieper Fire & Safety, we install advanced, intelligent, and fully compatible fire alarm systems designed to respond at the right time and minimize damage.

03.

Trusted Across the UAE: Counted among the top fire alarm providers in Abu Dhabi, Sharjah, Al Ain, and Dubai, we deliver systems you can rely on.

HOSE-REELS

01.

Standard-Compliant Design: DFS hose reel cabinets are built to house fire hose reels, firefighting equipment, and breeching inlets, meeting BS EN 671-1 and BS 5041-5 standards.

02.

Strong & Durable Build: Made from high-grade stainless steel and finished with powder coating, these cabinets offer excellent corrosion resistance and durability, suitable for both indoor and outdoor environments.

03.

Custom Sizes Available: DFS offers hose reel and breeching inlet cabinets in various sizes and configurations, allowing customization based on your facility's layout and specific fire protection requirements.

FIRE PUMPS

01.

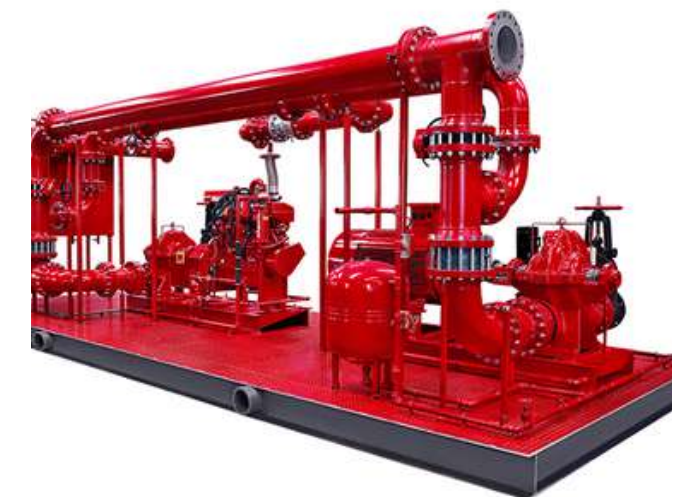

Water Pumps: Suitable for all types of buildings and projects, our water pumps are designed to support fire hose reels, hydrants, sprinklers, and water-based fire protection systems. Each unit comes with a 2-year standard warranty and is UL/FM certified for reliability.

02.

Foam & Clean Agent System Pumps: Ideal for protecting electrical and mechanical assets, these pumps work with bladder tanks to discharge foam mist—perfect for sensitive environments requiring non-damaging fire suppression.

03.

High-Capacity Pumps: Engineered for offshore sites and high-rise towers, our high-pressure pumps offer top-tier durability and performance. Options include split-case and vertical pumps, essential for safeguarding large-scale infrastructure across the UAE.

VOICE EVACUATION

- 01.** Certified Solutions: DFS designs and provides certified voice evacuation systems tailored to meet the safety needs of buildings across the UAE and the Middle East.
- 02.** Clear Emergency Alerts: Our systems ensure that all occupants are promptly alerted with clear evacuation instructions during emergencies, reducing confusion and delays.
- 03.** Highly Effective Response: Voice evacuation is one of the most effective methods for ensuring a safe and orderly evacuation in critical situations.
